

SERVICE CENTER

CATALOG

MyMaximus Service Center is an inclusive workshop designed and established to support employment of People of Determination & Young Learners who pursued an electronic repair course as a pathway for their future careers.

We cater for customers and corporates alike.

We partner with local and international spare parts suppliers to provide our customers with reliable and genuine spare parts.

Made by anyone. Repaired by us.

A single source for repairs

Meet your repair needs quickly and conveniently. You'll find quality in every step of our repair process, whether the item is repaired at our MyMaximus Service Center, or through our strategic suppliers.

As the original equipment manufacturer of products and Electric drives, we are your single source for service, providing repair on thousands of types and brands of electrical and electronic products.

BENEFITS

- **REPAIR SAVINGS:** Decrease service costs by increasing the mean time between failure (MTBF) by using OEM-specified components (when available).
- **FASTER RECOVERY:** Minimize downtime with our equipment exchange program.
- **EXTEND PRODUCT LIFESPAN:** Repair obsolete or hard to find replacement products for increased dependability.
- **DETAILED TESTING:** Trend analysis on parts can predict component failures and enhance product reliability.
- **REPAIR AVOIDANCE:** Component level cleaning disinfects the unit, improves functionality and mean time between repairs.

FEATURES

- Emergency repair and support with our support capability.
- Environmental responsibility that complies with worldwide environmental standards.
- If the customer will proceed to repair the unit check up fee will be free.
- Fast Home Service Available.

ACTIONS TAKEN TO DIAGNOSE PROBLEMS:

- Your equipment is thoroughly cleaned to remove all contamination.
- Diagnostic tests are used to locate any inoperative components.
- Circuit analysis isolates marginal components.
- Aged as well as marginal components are replaced to support long-term performance of the unit.
- State-of-the-art equipment verifies total circuit board quality.
- Circuit boards are coded and tagged.
- Handling, packaging and shipping are performed in a static-free environment.
